About Puncak Bayu & Ukay Bayu Apartments

*all views are actual site photos

Puncak Ukay & Ukay Bayu apartments is a sensitive but comprehensive redevelopment and upgrading of just 89 free-hold, extremely low density apartments to modern luxury standards.

Situated at the highest points of the exclusive Ukay Heights residential enclave, most have truly exceptional views from elevated positions. Yet KL city centre is scarcely 10 minutes away via elevated high-way with direct entry to the KLCC complex.

The grounds are extensive, with mature trees retained to provide shade, privacy and a tropical garden ambience. Wildlife at the site abounds... Birdsong fills the morning air...

All apartments have generously proportioned rooms, with high ceilings and fans. Most units have balconies. All units are serviced by newly installed lift systems at just two units per floor. Most ground floor units have private gardens. There are two full size swimming pools.

In summary - the views are just stunning. The air is fresher, cleaner, cooler - purified naturally by the lush green vegetation. You are closer to nature yet KL city centre is less than 10 minutes away.

Puncak Ukay & Ukay Bayu is a never to be repeated, low density, luxury free-hold residential development.

They just don't make them like this anymore...
